NOTICE OF AUTHORIZATION TO APPLY THE UL MARK

Northbrook Office

November 30, 2001

Acer Inc
Attn: Ms. Lillian Huang
2/F1
88 Bin Tai Wu Rd, Sec 1
Hsichih
Taipei Hsien 221 Taiwan

Our Reference: File E145483, Project 01NK48000
Subject: New models VT3300D, VT5200D, VT7200D, and ASELD, and alternate components.

Dear Ms. Huang:

We have completed our engineering investigation under the above project number and find the products comply with the applicable requirements.

This letter temporarily supplements the UL Follow-Up Services Inspection Procedure and serves as authorization to apply the UL and C-UL Listing Mark, only at the factory under UL's Follow-Up Service Program, to the above products, which are constructed as described below:

Similar to products covered in the UL Conformity Assessment Services Inspection Procedure, File E145483, Volume 1, Section 49, 51, 65, and 66.

To provide the manufacturer with the intended authorization to use the UL Mark, the addressee must send a copy of this Notice and all attached material to each manufacturing location as currently authorized in the appropriate UL File Procedure.

This authorization is effective for 90 days only from the date of this Notice and only for products at the indicated manufacturing locations. Records covering the product are now being prepared and will be sent to the indicated manufacturing locations in the near future. Please note that Follow-Up Services Procedures are sent to the manufacturers only unless the Applicant specifically requests this document.

Please note: Within Canada, there are federal and local statutes and regulations requiring the use of bilingual product markings. It is the responsibility of the manufacturer (or distributor) to comply with this law. As such, the markings provided in the UL Conformity Assessment Service Procedure may include only the English version. Please contact us if you need assistance with translations or in determining which markings are appropriate for your product.

Products produced, which bear the UL Mark, shall be identical to those evaluated by UL and found to comply with UL's requirements. If changes in construction are discovered, authorization to use the UL Mark may be withdrawn and products that bear the UL Mark may have to be revised (in the field or at the manufacturer's facility) to bring them into compliance with UL's requirements.

Respectfully,

Richard Gardner (Ext. 42693)
