## Important safety instructions

Read these instructions carefully. Save them for future reference.

- 1 Follow all warnings and instructions marked on the product.
- 2 Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- 3 Do not use this product near water.

4 Do not place this product on an unstable cart, stand, or table. The product may fall, causing serious damage to the product.

 $(\mathbf{\Phi})$ 

5 Slots and openings are provided for ventilation; to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should never be placed near or over a radiator or heat register, or in a builtin installation unless proper ventilation is provided.

- 6 This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
- 7 Do not allow anything to rest on the power cord. Do not locate this product where persons will step on the cord.

۲

- 8 If an extension cord is used with this product, make sure that the total ampere rating of the equipment plugged into the extension cord does not exceed the extension cord ampere rating. Also, make sure that the total rating of all products plugged into the wall outlet does not exceed the fuse rating.
- 9 Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- 10 Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.
- 11 Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
  - a. When the power cord or plug is damaged or frayed.
  - b. If liquid has been spilled into the product.
  - c. If the product has been exposed to rain or water.
  - d. If the product does not operate normally when the operating instructions are followed. Adjust only those controls that are covered by the operating instructions since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.
  - e. If the product has been dropped or the case has been damaged.
  - f. If the product exhibits a distinct change in performance, indicating a need for service.
- 12 Use only the proper type of power supply cord set (provided in your accessories box) for this unit. Always disconnect the power cord from the wall outlet before servicing or disassembling this equipment.

(5)

#### Taking care of your remote control

Here are some ways to handle your remote control:

- Dropping, wetting or placing the remote control in the sunlight may cause damage. Handle the remote control with care.
- Do not tamper with batteries. Keep them away from children.
- When you anticipate that the remote control will not be used for an extended period, remove the batteries to prevent possible damage to the remote control in a result of battery leakage.
- Dispose of used batteries according to local regulations. Recycle if at all possible.

### Cleaning and servicing

When cleaning your LCD TV, follow these steps:

- 1 Power off the TV.
- 2 Disconnect the power cord.
- 3 Use a soft cloth moistened with water. Do not use liquid or aerosol cleaners.

#### **Declaration of Environmental Protection Conformity**

- 1. This product was produced in compliance with strict global environmental regulations regarding pollution levels.
- 2. The manufacturer of this product is ISO 14001 certified.
- 3. Do not dispose of this product after use. Please recycle in accordance to your country's regulations.
- 4. LAMP (S) INSIDE THIS PRODUCT CONTAIN MERCURY AND MUST BE RECYCLED OR DISPOSED OF AC-CORDING TO LOCAL, STATE OR FEDERAL LAWS. FOR MORE INFORMATION, CONTACT THE ELECTRON-IC INDUSTRIES ALLIANCE AT WWW.EIAE.ORG. FOR LAMP SPECIFIC DISPOSAL INFORMATION CHECK WWW.LAMPRECYCLE.ORG.
- 5. Please visit the Acer website (http://www.acer.com) for more environmental protection information.

## First things first

We would like to thank you for making the Acer AT2601W your choice. Your new Acer TV will provide you with years of entertainment, versatility, and satisfaction.

This User's guide introduces you to the various features your LCD TV can offer, and provides clear and concise information about the product, so please read it thoroughly and retain it for future reference.

#### Basic features and benefits

- Wide Display with 1280x768 Resolution and HDMI HDTV Ready Display
- Simultaneous Pre-Viewing of Programs with 4 different Picture-In-Picture Modes
- Excellent Sound Enhancement with SRS WOW Technology
- Enjoy Digital Images with a 6-in-1 Card Reader
- Elegant Remote Control
- Brilliant Color with Gamma Correction
- Sharp and Accurate Image with De-interlacing and Comb Filter

#### **Packing Checklist**

Your LCD TV package should contain the following accessories, in addition to the accessory box. Please ensure that they are all present.

## **Basic connection**

۲

#### Connecting the power cord

- 1 Connect the AC cord into the AC input on the back of the set.
- 2 Connect the male plug to the wall outlet as shown.

۲

#### Connecting an antenna

Connect the outdoor antenna cable lead-in to the antenna terminal on the back of the TV set as shown.

۲

۲

(14)

# Connecting VCR/DVD/AV equipment with a SCART-SCART cable

۲

Connect SCART-SCART cable as shown below.

#### Connecting VCR/DVD/AV equipment with a SCARTcomponent/AV cable

Connect SCART-component/AV cable to SCART2 port as shown below.

۲

۲

#### Connecting a camera, camcorder, video game or headphones

Connect your camera or camcorder to the Video/Audio ports on the bottom of the TV set as shown below.

# Connecting a set-top box, DVD player or personal video recorder

Connect your set-top box, DVD player, or personal video recorder to the HDMI port on the bottom of your LCD TV as shown below.

۲

۲

۲

(16)

## Getting started watching your TV

۲

#### Power On

- a. Turn on power switch on bottom of TV.
- b. Press the power button, number keys or channel up/down button on remote control

#### Changing channels

1 Press 0-9 on the remote control to select a channel. The channel changes after 2 seconds. Press ENTER to select the channel immediately.

2 You can also change the channels by pressing and holding the Channel Up/Down button on the remote control. Up will increase the number, while down will decrease the number.

#### Setup Wizard

( )

The first time you power on the TV, the setup wizard will guide you to complete the "language selection" and "channel scanning" setp by step.

Step 1. Please plug in the tuner coaxial cable and then press "OK" key

Step 2. Auto Scanning, please wait Setup completed

#### Adjusting the volume

Adjust the volume using the VOL +/- button on the remote control. Up will increase the volume, while down will decrease the volume.

ß

۲

You can also adjust these settings using the front control panel. Please see "Front panel view" on page 8 for details.

## **OSD** Navigation

Many of the advanced settings and adjustments are available through using the OSD (on screen display) menus, as shown in the example screenshot below.

acer					
Picture Au	dio	Setting	Optio	n E	mpowering
	( <b>)</b> )	<b>*</b>			Ø
USER					
Brightness		[80]	0		100
Contrast		[50]			
Colour		[50]		_ <b>U</b>	100
Sharpness		[50]		<b>U</b>	
Colour Temp					[Cold]
Reset Picture					
♦ Move	ок	Enter	M	NU Bacl	< / Exit

( )

Basic operations required to navigate these menus (Picture, Audio, Settings, Options, Empowering) are described in this section. The first time you access the OSD, you will be asked to choose your language settings.

(18)

( )

You can also interact with these menus using the front panel controls. Please see "Front panel view" on page 8 for details.

#### Navigating the OSD with Remote Control

There are five main OSD menus. These are: Picture 😥 Audio 🔍, Settings 👾, Options 🛐 and Empowering 🍘 . Use the following method to easily navigate these menus.

1 Press the" Menu" button on the remote control or the" Menu" button on the control panel.

2 Select your desired menu by using the Left/Right sides of the directional pad to switch between the five menus.

3 Use the directional pad to interact with the menu. The Up/Down directions will scroll through the menu options, while Left/Right will adjust the different settings (for exmample, in the Picture menu, settings such as brightness, contrast, etc). If there are no adjustments, press Enter to select.

# Advanced Features

#### PIP/PBP/POP

In TV, AV, SCART and VGA/HDMI mode, press PIP/ PBP/POP button once to display the picture in picture (PIP). Press twice to display picture by picture (PBP).

In SCART(YPbPr/YCbCr) and VGA, HDMI mode, press PIP/PBP/POP button three times to display picture on picture (POP). Then, the POP screens will display the TV channel programs one by one.

POP (Picture on Picture)

#### PIP

( )

- Press the "TV-SCART-AV-VGA/HDMI" keys, number keys or "CH up/down" key to change the content of the PIP screen.
- 2. Press' Swap'' key to change the content between the primary and the PIP screen.

 Press" Position" key to select the location of the subscreens, from Upper Left -> Upper Right -> Lower Right -> Lower Left, as shown in the image.

 Press the "Size/Mode" key to change the size of the PIP screen between 25%, 37.5%, 50%

#### PBP

- Press the "TV-SCART-AV-VGA/HDMI" keys, number keys or "CH up/down" key to change the content of the PBP screen.
- 2. Press" Swap" key to change the content between the primary and the PBP screen.

#### POP

۲

- 1. Press" Activate" key to activate the TV channel on the top-left POP screen.
- Press the number keys or "CH up/down" key to change the TV channel of the top-left POP screen. Then, press the "activate" key again. The other POP screens will show the following channels in sequence.
- Press the "Size/Mode" key to access the 1 + 5 or 1+12 picture on picture mode as shown in the image below.

OP	POP	POP	POP	POP	POP	PC
		POP	POP			PC
		POP	POP			PO
		POP	POP	POP	POP	PO

#### Parental Control

When in TV mode, you can find a Parental Control feature in the Options menu. Enter a four-digit PIN number using the number keys on your remote control. Use this number to adjust the Parental Control settings, to prevent access to certain channels.

If you forget your PIN number, please enter 6163 to reset.

(19)

#### 

#### Empowering Key: Scenario Mode and Favorite Channels

۲

acer			
Picture Audio		Option	Empowering
	<b>Ø</b>	¥.	e
e Key Setting		[Sc	enario Mode]
Favorite Channel			
Scenario Mode			[Standard]
Reset Empowering			
♦ Move OK	Enter	MENU	Back / Exit

( )

Use the OSD to define your "e" Empowering key setting: Scenario mode and Favorite channel. The default value for the "e" key is the Scenario mode. Use the following method: Menu -> Empowering -> e Key Setting. Choose between "Favorite channel" or "Scenario Mode". Now, when you press the "e" key, your chosen selection will be accessed.

#### Scenario Mode

Press the "e" Empowering key and use the Scenario Mode to select pre-defined audio and video settings for optimal enjoyment of the following scenarios: Standard, Movie, Sport, Concert, Game, User.

Mode	Scenario Mode Design Direction
Standard	Standard mode allows you to watch your favourite channels with sharp, brilliant imagery via adaptive brightness and contrast adjustments. Clear-sounding audio is provided by SRS performance.
Movie	For comfortably enjoying movies at home, Movie mode displays dim scenes in clear detail; compensates for colour; and smoothly presents motion images. This is accomplished through optimal Gamma correction plus saturation, brightness and contrast adjustments. Movie mode makes the most of high-definition movie soundtracks by using SRS WOW technology.
Game	Game mode carefully details the exquisite graphics of modern video games, pro- viding lifelike entertainment while protecting your eyesight by adjusting bright- ness and contrast. What's more, Game mode provides a heightened audio experi- ence via SRS WOW technology.
Sports	Sports mode is suited for outdoor sports programmes, with accurate background depth and clear gradation between the bright, outdoor playing field and darker auditoriums. Sports mode also brilliantly enhances colours and presents swiftly moving pictures without residual images. All of this is achieved via specific Gamma corrections and saturation adjustments. Precise audio can be heard, thanks to Tru- Bass performance.
Concert	Concert mode places you in a virtual concert hall, opera house or other dim envi- ronment by means of adaptive brightness and contrast adjustments. Concert mode accentuates symphonic harmonies and the tenor audio range using SRS WOW technology.

English

#### Favorite Channels

Please note that Scenario mode is the default value for the "e" Empowering key. In order to make use of the following instructions, please set Favorite channel as the default using the method described on the previous page.

#### Storing favorite channels

For quick access to your favorite channels, use the following method:

- To store a channel in memory for quick access, select your desired channel, then press and hold the " e" Empowering key on the remote control for more than 2 seconds. This will store the TV program information at the bottom of the favorite list.
- There are a total of five slots in which you can store TV programs.
- If there is no empty slot in the favorite list, the first program will be wiped out and the new TV program is added at the bottom of the favorite list. Simply put, it's" First in, first out".
- When the current program is stored in the favorite list, pressing the" e" key for more than 2 seconds will remove the program from the favorite list.
- To view currently stored favorite channels, press the" e" Empowering key. You will see a screen similar to the one shown below.

#### Viewing your favorite channels

( )

 On the remote control, if you press the "e" Empowering key for less than 1 second, the favorite channel table will pop up. Your currently selected favorite channel will be highlighted. To view your other favorite channels, press the "e" Empowering key again to toggle the TV programs sequentially according to your favorite list.

(21)

#### Card Reader

The 6 in 1 card reader module gives you the additional capacity of being able to display high quality digital photos stored on popular flash memory medias, and viewing them in style on your Acer LCD TV. The card reader is accessed from the top of your LCD TV, and is shown in the picture below.

( )

Acer LCD TV card reader features available with the card reader module are listed below:

- Support for the most popular flash memory cards:
  - Compact Flash (CF) Type 1/2: 8MB~1GB;
  - IBM MicroDriveTM: 340MB and 1GB;
  - SmartMedia (SM): 8MB~128MB;
  - Secure Digital (SD): 16MB~512MB;
  - MultiMedia Card (MMC): 32MB~256MB;
  - Memory Stick (MS)/Memory Stick Duo/Memory Stick Pro: 8MB~512MB;

۲

- Supports progressive RGB output at 1024 x 768 @60Hz.
- Supports multiple transition effects.
- Supports thumbnail picture preview of 2x4 pictures.
- Supports four types of picture rotation: 0°,90°,180° and 270°.
- Supports slideshow function

(22)

MicroDrive™ is a registered trademark of IBM, Inc

#### Card reader OSD navigation

The card reader included with the Acer LCD TV provides a setup menu for you to customize the display mode or change the language of on-screen information, etc. To call up the menu, you need to insert a memory card first.

۲

Menu Item	Description
Card Sources	Selects the memory card whose pictures you want to view if more than one type of memory card has been inserted
Photo Information	Displays or hides the information of pictures, such as resolution, num- ber, date and time.
Slide Delay	Sets the interval timing between each picture when the SLIDE SHOW function is activated.
Display Mode	Displays the picture in full screen or maintains its original aspect ratio.
Transition Mode	Sets the transition effect of loading pictures.
Language	Changes the language of displayed information and setup menu

You can navigate the card reader OSD with Remote Control to customize your settings.

- Press' Card' key to enable the card reader keys function
- Press' Menu" key to Turn the card reader OSD menu on while getting into the picture mode

۲

- Press' Up/Down/Left/Right Arrow' to navigate your selection in card reader OSD
- Press' Enter" to access OSD menu selection

۲

Menu key is disabled when using Preview mode.

(23)

## Troubleshooting

Before you call the Acer service center, please check the following items: The following is a list of possible situations that may arise during the use of your LCD TV. Easy answers and solutions are provided for each one.

#### There is no picture or sound.

- Make sure the power cord is properly inserted in the power outlet.
- Make sure the input mode is correctly set by your selected input.
- Make sure the antenna at the rear of the TV is properly connected.
- Make sure the main power switch is turned on.
- Make sure the volume is not set to minimum or the sound is not set to mute.
- Make sure the headphones are not connected.
- Reception other than those of broadcasting stations can be considered.

#### Picture is not clear.

- Make sure the antenna cable is properly connected.
- Consider whether TV signals are being properly received.
- Poor picture quality can occur due to A-VHS camera or camcorder and other peripheral connections at the same time. Switch off one of the other peripheral.
- The 'ghost' or double image may be caused by obstruction to the antenna due to high rise buildings or hills. Using a highly directional antenna may improve the picture quality.
- The horizontal dotted lines shown on the pictures may be caused by electrical interference, e.g. hair dryer, nearby neon lights and etc. Turn off or remove these equipment.

#### Picture is too dark, too light or tinted.

- Check the color adjustment.
- Check the brightness setting.
- Check the sharpness function.

24

• Fluorescent lamp may have reached the end of service life.

#### Remote control does not work.

- Check the batteries of the remote control.
- Make sure the remote sensor window is not under strong fluorescent lighting.
- Try to clean the remote control sensor lens on the TV with a soft cloth.
- Use the buttons (hot keys) on the TV before the remote control works.

If the above items do not solve your technical issue, please refer to the warranty card for service information.
