

Acer eSettings Management

Acer eSettings Management allows you to view your system information and configuration, set passwords to improve security, and set boot options.

Using Acer eSettings Management

To launch Acer eSettings Management:

- Click on the Acer eSettings Management icon in the **Empowering Technology toolbar** shown on your desktop.
- From the Start menu, go to **(All) Programs > Acer Empowering Technology > Acer eSettings Management**.

This will open the Acer eSettings Management main page.

The screenshot displays the Acer eSettings Management application window. The title bar reads "Empowering Technology" and "Acer eSettings Management". The window has tabs for "Summary", "Processor", "Memory", and "MB and BIOS", with "Summary" selected. Below the tabs is a table showing system hardware details:

Item	Value
Manufacturer	Acer, Inc.
Product name	TravelMate 3000
Operating system	Microsoft Windows XP Home Edition
Processor	Genuine Intel(R) CPU T2500 @...
Chipset	Intel 955XM/945GM/PM/GMS/940GML
Wireless LAN card	Intel(R) PRO/Wireless 3945ABG Network
Ethernet card	Broadcom NetXtreme Gigabit Ethernet ...
System Memory	256 MB

Video	Mobile Intel(R) G45GM Express Chipset

At the bottom of the window, there is a section labeled "Asset tag:" followed by a text input field containing "Acer-Travelmate-3000". The footer contains three buttons: "System Information", "Boot Options", and "BIOS Passwords", along with the Acer logo.

Acer eSettings Management Main Page

From the main page, you can view different types of **System Information**:

- Summary
- Processor
- Memory
- MB and BIOS
- Video
- Audio
- Network

Click the left and right arrows near the top-right side of the page to view all the system information tabs. Click the  icon to save and the  icon to print information for the selected tab.

By clicking the icons at the bottom of the page, you can also:

- Set your **Boot Options**.
- Create and remove **BIOS passwords**.

Boot Options

Select this page to change your computer's boot sequence and power-on options.

BIOS Passwords

Use this page to set BIOS supervisor and user passwords. The supervisor password restricts access to your PC's BIOS settings, and the user password restrict access to your PC.
