Done	🥂 🗌 🖉 hitto: //193	169 211/admin			

If you have a version earlier than V23, shown above, you can update it by using the Service.exe file.

2. Launch the service.exe file and click on the SA50 server you are using. Then enter in the Username and Password for this Server:-

View All Acer SA50s		×	
Step2 : Select Server to Configure	Please select th to configure fror are looking for, connected to yo working correct	e Acer Altos SA50 server appliance you want n the list below. If you do not see the one you please make sure it is turned on and our local network, and that your network is y.	
	Host Name	Description	
	sa50	SA50 Thin Server	
	_		
	Authentication		
		User Name : administrator Password : ******	
		UK Cancel	
E ANY		<b>&gt;</b>	
	After you select	a server, click Next to continue.	
		< <u>B</u> ack <u>N</u> ext > Cancel
