## Intel® RealSense™ Camera Calibrator

This release notes covers the Windows version of the Intel® RealSense™ Camera Calibrator application. This is an end-user application for the user to check the health of the Intel® RealSense™ R200 camera and calibrate it when needed.

### Installation guidelines:

Run CameraCalibratorSetup.exe and follow the instructions.  
For silent install run "CameraCalibratorSetup.exe /S".

## Version: 1.0.8

**Release date:** October 5, 2016

### Compatibility:

DCM version: 2.1.27.2853 (HF3), or any DCM with DSAPI 1.16.19.3  
OS supported: Win10

### Enhancements & New features

Reference number	Description
	DCM 2.1 HF3 support by incorporating DSAPI 1.16.19.3

### Bug fixes

Description	Resolution
The depth calibration fails on Windows 10 RS1 + DCM 2.1.27.2853 HF3.	Incorporated support for DCM 2.1.27.2853 HF3 and DSAPI 1.16.19.3.

## Version: 1.0.7 HF2

**Release date:** February 29, 2016

### Compatibility:

DCM version: 2.1.24.3501 (Gold), or any DCM with DSAPI 1.16.17.1  
OS supported: Win10

### Enhancements & New features

Reference number	Description
	Installs application shortcut in "Start Menu -> Intel" folder.

## Version: 1.0.7

**Release date:** January 13, 2016

### Compatibility:

DCM version: 2.1.24.3501 (Gold), or any DCM with DSAPI 1.16.17.1  
OS supported: Win10

## Enhancements & New features

Reference number	Description
	DCM 2.1 support by incorporating DSAPI 1.16.17.1

## Bug fixes

Description	Resolution
Text in Hebrew, Greek and Russian OS languages do not show correctly in Win10 TH2.	Win10 TH2 fonts fix for Hebrew, Greek and Russian OS languages.
RealSense folder not removed during uninstallation.	App's uninstaller will delete any parent folder created by the installer, as long as it is empty.

## Known bugs & limitations

Description
Camera calibration status examination is not deterministic. This happens sometimes and will be addressed together with quality improvements with software updates.

## Version: 1.0.3

**Release date:** November 6, 2015

**Compatibility:**

DCM version: 2.0.3.53109 (HF2) or any DCM with DSAPI 1.16.14.0

OS supported: Win10

## Enhancements & New features

Reference number	Description
-	When installation is an upgrade, first run the old uninstaller.

## Bug fixes

Description	Resolution
Comma, semicolon, colon do not show in Simplified Chinese language.	Choose Chinese fonts correctly for zh-Hans and zh-Hant parents.
Application cannot be found in Start menu in all user accounts.	Install Start menu shortcuts for all users, instead of current user.

## Known bugs & limitations

Description

## Version: 1.0.1

**Release date:** August 31, 2015

**Compatibility:**

DSAPI version: 1.16.14.0

DCM version: 2.0.3.46285

OS supported: Win10

### Enhancements & New features

Reference number	Description
------------------	-------------

### Bug fixes

Description	Resolution
Incorrect message when running Calibrator with no camera connected.	Calibrator has been updated to show appropriate messaging for situation when no camera is detected or connected to the platform.
Incorrect message when running application when another RealSense application is already running.	Calibrator has been updated to show appropriate messaging for situation when another RealSense application is running.

### Known bugs & limitations

Description
-------------

## Version: 1.0.0

**Release date:** August 6, 2015

**Compatibility:**

DSAPI version: 1.16.11.0

DCM version: 2.0.3.37595

OS supported: Win10

### Enhancements & New features

Description
Updated strings in Swedish localization.
Disable directory selection during installation if previous installation exists
Add optional /AUTOSTART parameter to installer
Change installer download location to %HOME%\%APPDATA%\Local\Intel\RealSense\CameraCalibrator
New String translations added

### Bug fixes

Description	Resolution
-------------	------------

Calibrator always shows "Please close all Intel RealSense applications..." even when no applications are running.	Calibrator has been updated to show appropriate messaging for errors.
Calibrator cannot get update without connected camera	Update process has been revised to allow for application to be updated without having camera available.

### Known bugs & limitations

<b>Description</b>
Calibrator fails to run again if laptop screen is closed while in calibration test part. User has to restart application.
Incorrect message when running Calibrator with no R200 connected.
Run calibrator tool while camera is already streaming show 'unexpected error'.
